- 4,272 children's day care service settings were regulated by CSSIW at 30 June 2013, a small decrease from 4,296 service settings at the end of the previous quarter.
- 75,238 children's day care places were registered with CSSIW at 30 June 2013, a decrease of 706 since the end of the previous quarter.
- Although the overall number of children's day care settings has remained fairly stable, a noticeable change has occurred in the provision of Open Access Play, with a decrease of 29 settings and 956 places. This decrease is mainly due to Conwy Council cancelling the registration of 44 open access schemes as they have changed the provision from operating 3 hours per day to 1.5 hours per day. This means they no longer meet the statutory criteria to be registered.

Notes

1. Source of statistics

The Care and Social Services Inspectorate Wales (CSSIW) encourages the improvement of social care, early years and social services by:

- regulating
- inspecting and reviewing
- providing professional advice to Ministers and policy makers.

The information in this brief is derived from the administrative system used by CSSIW to register and regulate care settings. The information only relates to regulated settings. CSSIW is in the process of reviewing the regulatory process and systems.

2. Timing

CSSIW's administrative system is continually updated as part of the inspectorate's day to day work of regulation. Publication relates to snapshots of the system taken on a quarterly basis throughout the financial year. Therefore published information is available for the end of

- Quarter 1 (April to June), that is 30 June
- Quarter 2 (July to September), that is 30 September
- Quarter 3 (October to December), that is 31 December

- Quarter 4 (January to March), that is 31 March

3. Data quality

Registration, de-registration and changes to registration occur throughout the year although in general the number of settings registered at any one time is fairly consistent.

Some of the data in this release may have been revised since its last publication in the Chief Inspector's 2010-11 annual report.

4. Symbols

The following notation is used in these tables:

- . = the data item is not applicable
- .. = the data item is not available
- = the data item is not exactly zero, but estimated as zero or less than half the final digit shown
- * = the data item is disclosive or not sufficiently robust for publication

5. Disclosure and rounding

Rounding has not been applied to the information in these tables or the supporting tables on StatsWales. This is because this information can also be found on CSSIW's Directory of Regulated Services (see item 9).

6. Revisions policy

As data is taken from an administrative system and gives a picture of activity recorded at a specific date, data will not be revised each quarter. This picture may not be exact as information may not be entered on the system until a later date (i.e. next quarter) and the next quarter may include some data from the previous quarter that was recorded 'late'. However, the number of cases involved is likely to be small.

7. Uses of statistics

We believe the key users of information on regulated settings in Wales (apart from CSSIW's core use) are:

- Welsh Government Ministers
- Department for Health and Social Services
- Assembly Members and the Members' Research Service in the National Assembly for Wales
- National Health Service
- The Office for National Statistics
- Local government unitary authorities (elected members and officials)
- Students, academics and universities,
- Other areas of the Welsh Government
- Other government departments
- Individual citizens and private companies.

Apart from CSSIW's core use of the information these statistics are used in a variety of ways. Some examples of these include:

- Advice to Ministers
- Unitary authority comparisons and benchmarking
- To inform debate in the National Assembly for Wales and beyond
- To provide information to commissioners of care services

8. User Feedback

We want to engage with users of our statistics and we invite you to send your comments on the publication to cssiw_information@wales.gsi.gov.uk.
