Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published [guidance](#) on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	We regularly speak to Residents to identify their needs and wishes, conduct periodical residents meeting, speak to the family via all possible channels (phone, internet etc.). Individualised care plan of the Service User's will be reviewed and updated regularly. Service Users are taken to optician once a year as a standard practice and based on the needs this is reviewed and acted upon. Arrangements are made as appropriate and necessary in order to help maintain our residents' overall oral health. GPs, Community Nurses, and other primary care staff will visit the Home as and when required. The Home has few staff who can speak Welsh language. Every effort will be made to put at least one Welsh speaker in each shift.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Feedback from Residents, Family and Friends is regularly collected and acted upon. Advice from the GP, Medical Professional and recorded and applied. The Social Worker also plays a vital role. We encourage everyone to provide feedback publicly in review websites. Complaint and complimentary book is maintained to gain feedback.
The extent to which people feel safe and protected from abuse and neglect.	Staffs are trained to identify any potential abuse by giving them training on safeguarding. All details are maintained in records and shared with Social Workers.
The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.	Residents goals are identified by talking to Residents, Family and Friends, Professionals etc. Every effort is made to support them. As an example, one of our Residents had a goal of visiting local amenities by her own, which was identified and we helped to mobilise and secure her mobility scooter, also one of the staffs accompanied her initially to guide.
