Training and Workforce Planning

Describe the arrangements in place during the last financial year for identifying, planning and meeting the training needs of staff employed by the service provider

The service regularly reviews the training undertaken by all staff to ensure that staff have up to date training in core areas such as (but not limited to) manual handling, medication administration, sa feguarding, dementia, health and safety etc. All training is held on an electronic system where update reports can easily be obtained . Consideration of training implications are built into the planning of any service developments.

Describe the arrangements in place during the last financial year for the recruitment and retention of staff employed by the service provider

The service regularly reviews and regrades, where appropriate, the profile of care workers. The service has a dedicated resource focussed on the recruitment of new staff. The service is represented in local job fairs, and pop-up events across the County. There has been a concerted recruitment campaign which has included TV and radio advertisements, and posters on bus stops.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published $\underline{\text{guidance}}$ on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.	
The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express th eir views and choices over how their care is delivered. Service delivery plans are coproduced to reflect what matters most to the person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations. People are provided a key worker. 87% of people who live at Awel Tywi stated they felt their rights and choices were respected, 81% knew who to contact if they needed to discuss anything about their care. 100% of the people who completed the survey stated they had the opportunity to speak Welsh to staff if that was their preferred language of choice. The overall quality of the service at Awel Tywi was rated by the residents as Excellent.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals and are responsive to the changing needs of people who use t he service. The Care Home ensures that monitoring processes are in place to ensure any changes to health and/or wellbeing of the person is highlighted and acted on at the earliest opportunity.
The extent to which people feel safe and protected from abuse and neglect.	People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not o nly to report, but also to put measures in place to ensure that the people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our practice and approach to service delivery, and staff have good relationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.
The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.	People are assessed prior to admission and their wellbeing and needs are taken into consideration. Bespoke Care and support plans are completed at the home using a holistic approach. The person is asked "what matters to them". The Care Home involves the people to ensure their personal outcome are met where ver possible. The latest Quality Assurance survey showed the following results: - 100% of the people were happy with the meals. 100% described the facilities at the home Excellent/Good 100% of the people described the Activities and entertainment as Good/Excellent. 100% of the people said the cleanliness and comfort of the home was Good/Excellent. The Responsible Individuals undertakes regular visits and speaks to the people, this provides opportunities for the people to discuss if they are happy and what areas can be improved upon.

Typical shift patterns in operation for employed s	staff	
Set out the typical shift patterns of staff employed at the service in this role type. You should also include the average number of staff working in each shift.	Residential Child Care Officers (RCCO's) have a supervisory role at Blaenau Children's Centre. One of the 5 officer posts has a contract of 34 hours and the other 4 officer posts are contracted to 28 hours a week. All Officers have a 10 week rolling rota, so that shifts can be worked out in advance and planning outside of work can take place. All officers work 5 and a half week ends out of 10 and have 4 and a half weekends off out of 10. All officers are required to "sleep in" and currently there is a pattern for all officers of 15 per 10 week rolling period. When an officer has a "sleep in" shift, they will normally commence at 2.30/3pm, work until 11pm. They will retire to a dedicated sleep in room but are aware they are on call should they be needed. There is a waking night member of staff in the building while they are asleep. Officers shift starts at 7am the next morning and depending on the pattern of rota, they may finish any time between 11 am and 2 pm the following day. However, during school holidays, there is an expectation that officers will stay until 3pm the following day after their sleep in, as the centre sup ports children 24/7 when schools are closed. During weekends and the holiday periods children arrive with us at 3pm and are discharged the following day at 2pm. The officer sleeping in on any given day will take the lead for that shift and will be supported by other officers or Residential Day Care Workers or Casual staff, depending on the need for cover at the time. On each shift there is at least 2 members of staff, 1 as lead of shift. We aim to have 3 staff on each shift and this is what our existing 10 week rota covers us for. However there are occasions due to annual leave, sick leave or training that we may have to reduce staff if we are unable to find cover - alt ernatively we can increase staff on shifts where the need has been identified for a child or mix of children. We have the flexibility to do this.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published $\underline{\text{guidance}}$ on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

Set out your statement or compliance in respect to the loan of	
The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express their views and choices over how their care is delivered. Service delivery plans are coproduced to reflect what matters most to the person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations. People are provided a key worker. 100% of people who live at Caemaen stated they felt their right s and choices were respected, 89 % knew who to contact if the y needed to discuss anything about their care. 70% of the people who completed the survey stated they had the opportunity to speak Welsh to staff if that was their preferred language of choice. The overall quality of the service at Caemaen was rated by the residents as Excellent.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals and are responsive to the changing needs of people who use the service. The Care Home ensures that monitoring processes are in place to ensure any changes to health and/or wellbeing of the person is highlighted and acted on at the earliest opportunity.
The extent to which people feel safe and protected from abuse and neglect.	People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not only to report, but also to put measures in place to ensure that the people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our practice and approach to service delivery, and staff have good relationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.
The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.	People are assessed prior to admission and their wellbeing and needs are taken into consideration. Bespoke Care and support plans are completed at the home using a holistic approach. The person is asked "what matters to them". The Care Home involves the people to ensure their personal outcome are met where ver possible. The latest Quality Assurance survey showed the following results: - 100% of the people were happy with the meals. 100% described the facilities at the home Excellent/Good 87% of the people described the Activities and entertainment as Good/Excellent. 100% of the people said the cleanliness and comfort of the home was Good/Excellent. The Responsible Individuals undertakes regular visits and speaks to the people, this provides opportunities for the people to discuss if they are happy and what areas can be improved upon.

What arrangements were made for consulting people who use the service about the operation of the service during the last financial year?	People who use the service were surveyed twice the last year. The see were a mix of telephone surveys, and paper feedback forms. Those that have used the Reablement short term service are provide with a satisfaction questionnaire on completion of the service. The Homecare service is also provided in two Extra Care Schemes and the Homecare Manager and RI will attend regular coffee mornings held for the tenants in each of the schemes. The RI undertakes regular home visits to a sample number of people who use the service, and their families where possible. The RI visits are an opportunity to learn from the people who use the service, and understand what we can do better. The information gleaned from the surveys, RI home visits, and coffee mornings, informs our forward work and training programmes, and highlights areas of good practice that we can continue to build on.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express th eir views and choices over how their care is delivered. 96% of p eople who use the service stated they knew who to contact if th ey needed to discuss anything about their care, and 97% felt th at communication with the service was either excellent or good.

Service delivery plans are coproduced to reflect what matters m ost to the person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations.

A survey of people who use the service revealed that:-

- 97% stated that their care and support is delivered confidently, with dignity, respect and understanding of their personal need
- 99% stated that they are listened to and able to express their views on how they receive their care and support.
- 70% stated that they consistently receive the service from the same Homecare Workers
- 57% said they are able to receive the service from a carer who could speak some Welsh

Comments from people who use the service include:

- the staff work with me and do the things the way I like them do ne
- I am able to tell the staff how I like things done

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals, and are responsive to the changing needs of people who use the service

People who use the service hold it in high regard, and speak p ositively about the carers, and the support they receive. 96% of people who use the service rate it as either excellent and 97% r ated the professionalism of the Homecare Workers as excellent

Carmarthenshire has a high percentage of Welsh speakers in it s population. The ability to receive care and support through th e medium of the Welsh language is a fundamental component of ones overall sense of wellbeing. For these people who use t he service, where Welsh is the persons language of choice, 57 % of those surveyed state that they are able to receive their ca re and support through the medium of Welsh.

The extent to which people feel safe and protected from abuse and neglect.

People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not only to report, but also to put measures in place to ensure that the people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our practice and approach to service delivery, and staff have good relationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.

The following section requires you to answer questions about the staff and volunteers working at the service.

Number of posts and staff turnover

The total number of full time equivalent posts at the service (as at 31 March)

212

The following section requires you to answer questions about each staff type including information about the number of filled and vacant posts, the training undertaken, the contractual arrangements in place and the qualifications of those staff.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express th eir views and choices over how their care is delivered. Service delivery plans are coproduced to reflect what matters most to th e person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations. People are provi ded a key worker.

74% of people who live at Dolyfelin stated they felt their rights a nd choices were respected, 72 % knew who to contact if they n eeded to discuss anything about their care. 63% of the people who completed the survey stated they had the opportunity to sp eak Welsh to staff if that was their preferred language of choice

The overall quality of the service at Dolyfelin was rated by the r esidents as Great.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals and are responsive to the changing needs of people who use t he service.

The Care Home ensures that monitoring processes are in place to ensure any changes to health and/or wellbeing of the person is highlighted and acted on at the earliest opportunity.

The extent to which people feel safe and protected from abuse and neglect.

People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not o nly to report, but also to put measures in place to ensure that t he people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our pr actice and approach to service delivery, and staff have good re lationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

People are assessed prior to admission and their wellbeing and needs are taken into consideration. Bespoke Care and support plans are completed at the home using a holistic approach. Th e person is asked "what matters to them". The Care Home invol ves the people to ensure their personal outcome are met where ver possible.

The latest Quality Assurance survey showed the following resul

90% of the people were happy with the meals.

100% described the facilities at the home Excellent/Good 90% of the people described the Activities and entertainment a s Good/Excellent.

100% of the people said the cleanliness and comfort of the ho me was Good/Excellent.

The Responsible Individuals undertakes regular visits and spea ks to the people, this provides opportunities for the people to di scuss if they are happy and what areas can be improved upon.

The following section requires you to answer questions about the staff and volunteers working at the service.

Number of posts and staff turnover

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	The young people are encouraged to voice their choices on their care and support and their keyworkers consult with them in their preferred method of communication about their needs, like and preferences. Each of the young people have their own a dvocate to consult with to ensure their voices are heard. Communication is good and parents and family members are included in all aspects of young people's lives. Staff evidently offer choice to the young people throughout their day and they are encouraged and supported to try a range of opportunities.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	The home has detailed personal plans which ensure that care is holistic. The young people are supported to access various a ctivities of their choice. Young people have a detailed visual we ekly planner that helps them to follow their schedules. Young people are encouraged to attend all appointments needed for their health and wellbeing and these are managed carefully and sensitively with the least amount of difficulties. The home supports children's education placements when needed to maintain attendance.
The extent to which people feel safe and protected from abuse and neglect.	The home benefits from an experienced team who know the chil dren well. They are supported by a group of longstanding casu al staff to ensure that cover is provided by staff who know the home and the young people well. All staff have undertaken safeguarding training as well as training in managing behaviours that challenge in a positive manner. The home has developed the audit processes for health and sa fety as well as medication checks, which further safeguards individuals who use the service. There are processes in place to raise any safeguarding issues and manage them appropriately.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

The home has developed their personal plans to ensure that e ach child has outcomes recorded that are specific to them and t hat the progress of these is documented clearly.

The team hold regular meetings that are well attended, whereby the needs of individual young people are discussed and plans agreed.

Individual multi disciplinary team and focus groups are held reg ularly to ensure that support is appropriate and focussed on be st outcomes.

The property is well set out and maintained, giving young peopl e safe, spacious and familiar surroundings.

The team ensure that young people have the same opportuniti es as their peers. Although the children/ young people's needs are complex, there is strong belief that with the right support an d strategies leisure pursuits can be as meaningful as possible a nd will allow them to increasingly develop in the areas of social and life skills. If any young person develops a special interest o r skill, it is encouraged and facilitated wherever possible. Feedback from families is overwhelmingly positive with a parent commenting that her child is 'Living their best life' at the home.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	Children are consulted each time they stay or visit the home an d parents/carers have the opportunity to discuss the operation of the service at CASP reviews and Annual Education Reviews. The home is in close contact with parents/carers generally and more specifically after each child's stay to update them. Coffee mornings are held to which all parents and carers are invited a nd feedback questionnaires have been sent out to families and staff.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	The children and young people who attend the home do so for short breaks and overwhelming feedback is that they love their stays at Llys. The staff prepare for each individual visit, taking into account s pecific needs and likes and dislikes. Staff receive training to en sure that they are able to manage any health related needs, as well as understand specific needs of the children. Young peoples plans are detailed and include specific informati on to ensure a consistent, happy stay at the home. The home works closely with the children's schools to ensure consistent s upport plans. The home has held coffee mornings and group e vents throughout the year, in order to gather feedback face to f ace. The attendance at these events can vary and so the reintr oduction of questionnaires to all service users has been implem ented.
The extent to which people feel safe and protected from abuse and neglect.	The home benefits from a well established, experienced team, s upported by a group of longstanding casual staff to ensure that cover is provided by staff who know the home and the young p eople well. The home has greatly reduced any use of agency that was nec essary during the pandemic. All staff have undertaken safeguarding training as well as training in managing behaviours that challenge in a positive manner. The home has developed the audit processes for health and sa fety as well as medication checks, which further safeguards individuals who use the service.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

The home has developed their personal plans to ensure that e ach child has outcomes recorded that are specific to them and t hat the progress of these is documented clearly.

The team hold regular meetings that are well attended, whereby the needs of individual young people are discussed and plans agreed.

Individual multi disciplinary team and focus groups are held if a personal outcome is more complex.

The property is well set out and maintained, giving young peopl e safe, spacious and familiar surroundings and young people a re encouraged and supported to follow a wide range of activitie s.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published $\underline{\text{guidance}}$ on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express th eir views and choices over how their care is delivered. Service delivery plans are coproduced to reflect what matters most to th e person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations. People are provi ded a key worker. 87% of people who live at Maesllewelyn stated they felt their rig hts and choices were respected, 81 % knew who to contact if they needed to discuss anything about their care. 100% of the people who completed the survey stated they had the opportunity to speak Welsh to staff if that was their preferred language of choice. The overall quality of the service at Maesllewelyn was rated by the residents as Excellent.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals and are responsive to the changing needs of people who use t he service. The Care Home ensures that monitoring processes are in place to ensure any changes to health and/or wellbeing of the person is highlighted and acted on at the earliest opportunity.
The extent to which people feel safe and protected from abuse and neglect.	People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not only to report, but also to put measures in place to ensure that the people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our practice and approach to service delivery, and staff have good relationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

People are assessed prior to admission and their wellbeing and needs are taken into consideration. Bespoke Care and support plans are completed at the home using a holistic approach. The person is asked "what matters to them". The Care Home involves the people to ensure their personal outcome are met where ver possible.

The latest Quality Assurance survey showed the following results: -

100% of the people were happy with the meals.

95% described the facilities at the home Excellent/Good 100% of the people described the Activities and entertainment as Good/Excellent.

100% of the people said the cleanliness and comfort of the home was Good/Excellent.

The Responsible Individuals undertakes regular visits and spea ks to the people, this provides opportunities for the people to di scuss if they are happy and what areas can be improved upon.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

All people have a service delivery plan that is developed with the person and other people involved in their support. This is reviewed at least quarterly. During the review we aim to understand what is important to them during their stay at Tir Einon and how we can make any improvements to their stay.

Questionnaires sent to all stakeholders regularly. Coffee mornings with the RI and Senior Managers held approximately bi-monthly.

Some feedback this year is that people want to get back to the I evel of service they had prior to the Covid 19 Pandemic.

Staff are trained in Total Communication, Positive Behaviour Su pport and Intensive Interaction as everyone who receives a ser vice at Tir Einon has different communication needs. This infor mation is available in their Service Delivery Plan in detail to ensure that all staff are updated.

Menus are available in picture format and the cooks have infor mation about peoples likes and dislikes so that this can be adju sted for during their stay.

The Positive Behaviour Support Team work with the staff in Tir Einon and ensure that information is captured in peoples Servic e Delivery Plans. They liaise with all services that the individual s attend as well as liaising with parents/carers and other profes sionals involved.

The activities that people like and dislike are captured in peopl es Service Delivery plans and people are supported to access t hese (both within the service and the local community). The sta ff team have looked at their skills and interests and these are m atched with the service users to ensure that they receive the be st possible service.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

A comprehensive assessment of an individuals needs is undert aken prior to admission. This includes detailed information abo ut the individuals health needs. Where other professionals are i nvolved information will also be gathered from them and this may include bespoke training to meet an individuals needs, eg, PE G feeding, Moving and Handling, Suction, Feeding and Swallow ing assessments etc. This is under continual review and appropriate professional advice is sought when needed.

A comprehensive record of health professionals visits, emails a nd phonecalls is kept in each persons file. Any issues or concer ns are discussed at the staff handover for the individuals curre ntly staying in Tir Einon.

Due to the nature of the service staff may need to accompany i ndividuals to medical appointments and relay any information to parents/carers and relevant professionals.

Hospital passports or hospital information forms are available in individuals files should they need to attend hospital.

Staff have good relationships with local GP surgery and if anyo ne is admitted as an emergency they will be registered with the local surgery.

Staff receive training in relation to Moving and Handling, Epilep sy, Administration of medication, Gold and Silver level for PEG f eeding. Bespoke training is provided for individuals who have a dditional specialist needs, eg, Suction.

Some people have been attending the service for a number of years and staff have got to know people very well. They are able to identify non-verbal cues in relation to peoples health need and will contact relevant professionals if they feel that something is wrong.

The staff team have supported new providers to understand in dividuals needs and have been able to provide a vast amount o f information to ensure the success of a new permanent placem ent.

The extent to which people feel safe and protected from abuse and neglect.

Staff are trained in Safeguarding and will follow up any concern s raised. Any issues raised are reported using the appropriate electronic system.

Medication audits, kitchen audits, infection control audits and fir e audits are undertaken by Senior Staff on a regular basis. Pro blems identified are resolved by appropriate actions which may include contacting the building repair system or by taking other relevant action.

Staff are aware of the current policy in relation to reducing restrictive practices and there is further work being undertaken through the de-brief system that is in place following staff handover

There is evidence of wear and tear on the fabric of the building but this is being addressed as part of a wider organisational policy to decarbonise buildings. However, within the service any ne cessary equipment is serviced regularly and actions taken to re medy any problems. Health and Safety representatives are awa re of the current concerns and have confirmed that there are no health and safety risks at this point in time.

Staff are now registered with Social Care Wales and are aware of their development requirements to ensure that they remain e ligible to re-register. All staff are aware of the Code of Conduct and this has been discussed during de-briefs. Some staff have been very engaged with this and this has provoked much discussion

All staff are DBS checked prior to commencement and this is re newed every 3 unless they are on the update service.

A weekly meeting is held with representation from the Social Ca re Teams and Health managers to discuss priorities in relation t o respite for individuals and families who may be struggling to c ope. This discussion has helped to facilitate emergency respite for people who have the greatest need as well as ensuring that people who have previously not used the service are introduced in a timely manner.

Now that the service is no longer required to observe strict Covi d 19 infection control procedures Tir Einon has reverted to its p re-pandemic 'open door' policy where parents/carers and profe ssionals are welcomed at any time.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

Tir Einon is a respite service for people who have complex nee ds and who may display behvours that challenge. The whole bu ilding is level access and all rooms are fully accessible, as is the e garden.

As a respite service the main aim is to provide the opportunity for unpaid carers to have a break from their caring responsibilities. However, within this the service attempts to meet the needs and wishes of the individuals who attend by ensuring that staff have sufficient information and training to provide good quality care and support to all of the people who attend. This means that staff have to know a large number of people and may need to change their support and communication throughout their shift. Due to the demands of the unpaid carers it may not always be possible for people to attend the service with people who have similar interests but where possible this is done. Activities are planned to accommodate peoples individuals needs and the staffing levels are sometimes required to be adjusted to accommodate this.

Although rooms are not individualised the service delivery plan outlines what the individual will need and some people have an environmental preparation checklist that is needed to be completed prior to their admission.

Staff have identified that they want to make Tir Einon a great pl ace to visit and a great place to work. They have developed a 3 year plan to improve and develop the service and some of this i ncludes environmental changes and some things about the way that they support the individuals.

What arrangements were made for consulting people who use the service about the operation of the service during the last financial year?

Easy read questionnaires are sent out to all Individuals annually a nd thematic consultation events are held regularly. On receipt of completed questionnaires, a report is compiled based on feedback received. If any negative feedback, or issues/concerns are raised by Individual/s, the Business Manager contacts the Individual/s directly to discuss their feedback in more detail. The issue/concern is looked into thoroughly and appropriate action undertaken. This may include supporting the Individual to make a formal complaint through the relevant Local Authority's Social Care and Health Complaints Department and/or completion of a Multi Agency Referral Form (MARF) to Adult Safeguarding. The Individual/s are then provided with comprehensive feedback including outcomes to be taken to improve the service they have received.

Individual/s and the staff team to explore the viability of incorporating the suggestion into practice.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

Every Individual receiving support has a Personal Plan focusing on the outcomes that are important to the person and what nee ds to be in place for them to achieve these. We are currently re viewing this to improve and develop an easy read format, so in dividuals are supported to engage in a meaningful way. Staff ar e still finding the format not that easy to use, but there has bee n a great deal of improvement in the numbers of Personal Plan s that are being reviewed on a quarterly basis. The Personal Pl an is reviewed in line with regulation 14 and we strive to improve the quality and consistency of the completion of this paperwor k, and the need to continue to comply with the requirement to r eview quarterly.

In addition to the regular engagement with Individuals who use the service that takes place to plan and deliver their support, an nual surveys are undertaken with Shared Lives Carers, Individuals that use the service and their families to measure the levels of satisfaction with the service, and to invite ideas and comment sthat may help the service to develop and improve its provision. Surveys are sent out electronically and in hard copy to carers, and other professional colleagues, and easy read surveys are undertaken with individuals that use the service and/or their representatives.

Since March 2022, we have returned to undertaking Face to Face scheduled visits with SL Carers and Individuals and moved a way from contact made via TEAMS, or by telephone. This has had a beneficial effect on Individuals, who in the main, have been able to participate and engage more fully in Personal Plan and Arrangement Agreement reviews.

Engagement on a more localised level have been organised thr ough Local Champion Group Meetings which have taken place across Carmarthenshire, Ceredigion and Pembrokeshire. SL ca rers and Workers have met via TEAMS or Face to Face for 'Walk and Talk' meetings were a range of topics, such as SL Carer training and updated Policy and Procedures have been discussed. This has also included arranging and facilitating thematic consultation events with Individuals who access services with West Wales Shared Lives.

Individuals supported in the service are actively involved in the recruitment of staff, running interview panels and reviewing job profiles.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

Each person has a personal plan which identifies the support they require to maintain their health and wellbeing as independently as possible. Where other professionals are involved, information will be gathered from them and shared with carers, e.g., Moving and Handling etc. This is under continual review and appropriate professional advice is sought when needed.

The competency and performance of staff and carers is key to delivering a high-quality service and outcomes for individuals. We consider the application, assessment, and approval proces s of SL carers an essential and important quality standards me chanism, that we use to ensure the fitness of SL carers to meet the needs of Individuals.

The ongoing training and professional development of carers is integral to high quality provision, carers are encouraged to commit to training to ensure they can support individuals to achieve what is important to them and have the skills to do so. All new S L carers are expected to complete the AWIF training, Medication and bespoke training is provided for individuals who have ad ditional specialist needs, e.g., Moving and Handling, Mental He alth first aid etc. The annual carer reviews provide opportunity to discuss how the carer is meeting the wellbeing needs of the individuals and any future training needs in this area. A training matrix is held centrally to ensure training is being undertaken and identify any areas for development.

We ensure that the SL Carer has the skills and abilities to meet the needs, requirements, and aspirations of the prospective ind ividual using a comprehensive and transparent matching proce dure. This is pivotal to a successful placement arrangement. C onversations with the Individual when completing their Personal Plan, together with their SSWBA, provides an all-round view of what matters to the person and the outcomes they want to achi eve. The Scheme will then look at the available carers and alloc ate a potential good match. Introductions and visits with the pot ential carer and the Individual are key to a successful arrangem ent.

We ensure that the information upon which any matching decisi on is made is current, complete, and relevant. Shared Lives will support the prospective Individual, the SL carer, and Case Man ager to participate fully in any matching decision via introductor y meetings and providing information in accessible formats. The extent to which people feel safe and protected from abuse and neglect.

The Shared Lives Scheme follows the Wales Safeguarding procedures and Scheme staff have been provided with the shortcu t for their desktops. Scheme Staff and carers complete the man datory safeguarding training which is refreshed every two years

At the point of application and annually thereafter a Health and Safety checklist is completed to ensure environment is safe, a p et questionnaire is completed if there are pets present. Proble ms identified are resolved by appropriate actions which may include the completion of specific risk assessments.

We undertake four monitoring and support visits and one unan nounced visit which allows us to assess the environment, obser ve interactions between carers and those supported, provide a n opportunity for us to make sure everyone is happy and give a n opportunity for everyone to raise any concerns they may have

We review the individuals personal plan with them every three months where we can make sure they are happy and give them an opportunity to raise any concerns.

The Shared Lives Scheme is compliant with Social Care Wales and the National DBS policy with all staff working in the Scheme and carers working with the Scheme having a valid DBS. Compliance for staff is monitored via Human resources. Carer's compliance is monitored by the allocated worker via the monitoring and support paperwork and annual carer review. All carers are expected to sign up to the DBS update service and this is checked by the allocated worker. Prior to the update service coming into being this was managed by a comprehensive spreadsheet. Under Regulation 41 of Parts 2 to 16 of the Adult Placement Services (Service Providers and Responsible Individuals) (Wales) Regulations 2019 the Scheme will notify the Regulator of any events listed in Schedule 3. Any notifications are reviewed by the RI to identify any themes and that appropriate actions have been taken.

Individuals are supported to remain safe and well in their own h omes and staff are knowledgeable and understand their duty n ot only to report, but also to put measures in place to ensure th at the Individual is safe, and their wellbeing is at the fore. Sche me staff have good relationships and professional networks an d can mobilise a multi-agency response to ensure the safety of the people that use the service.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

People who use the service say that carers treated them with u nderstanding, dignity and respect and that they can express th eir views and choices over how their care is delivered. Service delivery plans are coproduced to reflect what matters most to the person receiving care and support, and focus on the persons strengths, their daily routine, and aspirations. People are provided a key worker.

100% of people who live at Y Bwthyn stated they felt their rights and choices were respected, 100 % knew who to contact if they needed to discuss anything about their care. 100% of the peopl e who completed the survey stated they had the opportunity to speak Welsh to staff if that was their preferred language of choice.

The overall quality of the service at Y Bwthyn was rated by the r esidents as Excellent.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	Carmarthenshire County Councils in house service works in an integrated way with other Health and Social Care professionals and are responsive to the changing needs of people who use t he service. The Care Home ensures that monitoring processes are in place to ensure any changes to health and/or wellbeing of the person is highlighted and acted on at the earliest opportunity.
The extent to which people feel safe and protected from abuse and neglect.	People are supported to remain safe and well in their own hom es and staff are knowledgeable and understand their duty not o nly to report, but also to put measures in place to ensure that the people who use the service are safe and their wellbeing is at the fore. Safeguarding is a golden thread that underpins our practice and approach to service delivery, and staff have good relationships and professional networks that enable them to mobil ise a multi-agency response to ensure the safety of the people that use the service.
The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.	People are assessed prior to admission and their wellbeing and needs are taken into consideration. Bespoke Care and support plans are completed at the home using a holistic approach. The person is asked "what matters to them". The Care Home involves the people to ensure their personal outcome are met where ver possible. The latest Quality Assurance survey showed the following results: - 100% of the people were happy with the meals. 100% described the facilities at the home Excellent/Good 100% of the people described the Activities and entertainment as Good/Excellent. 100% of the people said the cleanliness and comfort of the home was Good/Excellent. The Responsible Individuals undertakes regular visits and speaks to the people, this provides opportunities for the people to discuss if they are happy and what areas can be improved upon.
