## Training and Workforce Planning

Describe the arrangements in place during the last financial year for identifying, planning and meeting the training needs of staff employed by the service provider	Staff receive an in-house induction and are supported to complet e the All Wales Induction Framework. Staff have an individual training record and are provided with a blended approach to training needs. Training is delivered through a combination of taught sessions and live webinars which include the mandatory areas of learning. Training is also embedding into practice and performance is monitored via competence assessments, observations and one to one discussion in supervision.
Describe the arrangements in place during the last financial year for the recruitment and retention of staff employed by the service provider	We use a combination of methods for recruitment which include s ocial media, word of mouth, our website, local job sites and jobs b oards in and around the area.  We use values-based recruitment augmented by ongoing support for workers via mentoring, supervision, and appraisal. We have al so started research into obtaining an oversea sponsorship licence to expand our team.

#### Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

Statement of Purpose – Our Statement of Purpose (available to everybody), details the arrangements for people to have their v oices heard and have choices about the care they receive, the se include assessment, involvement in the personal plan devel opment and ongoing reviews, engagement and quality assurance.

Assessment and personal planning - People are involved in the personal planning process unless there is a valid recorded rea son (lack of mental capacity, they do not wish to be involved or it would be detrimental to their wellbeing). Everybody is support ed to have a voice and we do this by assessing their communic ation needs and providing information in a way which meets the ir assessed need. If people are unable to be involved, then their voice is heard by someone acting lawfully on their behalf for e xample, LPA for health and welfare. If there is no representative, a referral is made for advocacy support. In the last financial ye ar, we supported 53 people in our service, of these:

- · 24 were able to participate in the personal planning process, · 27 were represented by someone acting lawfully on their behalf,
- · 2 were represented by an advocate.

Care, Opportunities and support - We continually assess people's needs and preferences and work with people and their representatives (where applicable) to establish what matters to the m. This allows us to develop outcomes which we use to measure the success of the service we provide. Each person we supported in the last financial year had/have outcome focussed personal plans which they contributed to where appropriate.

Engagement and Quality Assurance – We request feedback an d engage with people who use our service along with their repr esentatives via surveys, conversations and meetings. People's opinion on our service is encouraged and we consult with them about how the service is run and our future planning. We carry out formal surveys every 6 months. These surveys are used to complete the Quality of Care review. The RI undertakes 3 mont hly visits to the service, this includes speaking to people who us e the service about their views. The visits are recorded and reports are written which form part of our continuous improvement plan. The results from our most recent survey for the question; 'People are fully involved in decisions about current and future care' returned the response of 89% of people rating this as 'go od' or 'outstanding'.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

In order to ensure that people are happy and supported to mai ntain their ongoing health, development and overall wellbeing, we use a combination of personal plan reviews, engagement an d quality assurance.

Personal plan reviews - Each person we supported during the I ast financial year had a minimum of one review of their persona I plan every 3 months. These reviews focussed on whether we met their needs and preferences, managed risks associated wit h their care and support and the extent to which we met their o utcomes. When the reviews identified areas where needs, prefe rences or outcomes were not met or risks were not managed a revision of the personal plan was undertaken and the relevant changes made. Our most recent survey showed that 94% of pe ople rated our service as good or outstanding for the following question - 'Peoples care, treatment and support are set out in writing, and this tells staff what is needed to support them best'. Engagement and Quality Assurance- our most recent survey of the views of the people who use our service and /or their (as ap propriate) showed that 89% of people agreed that 'Staff treated people with dignity and respect. They spend time with people a nd care about their wellbeing'. The same survey data shows th at 94% of people agreed that 'People are encouraged to expre ss their views and say that they feel listened to, valued and res

The extent to which people feel safe and protected from abuse and neglect.

We support people to feel safe and protected from abuse by m aking our safeguarding policy and procedures available to the m in an accessible format. Our personal plans also identify the risks associated with providing care and support to meet people's individual needs. Everyone who used our service in the last financial year has/had risk assessments as part of their person al plan.

Our most recent survey showed that 61% scored 'outstanding' for the following question- 'if people have any concerns and complaints, staff always take them seriously, investigate them thor oughly and respond to them in good time' and a further 33% scored 'good'. 100% of people in the recent survey selected 'good' or 'outstanding' for the following - People feel protected from being bullied, harassed, harmed or abuse.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

Our most recent survey asked people and/or their representati ves (as appropriate) to provide their opinion on the following. The survey data results evidence that 89% of people agreed th at individuals are involved with decisions about their care and t he same percentage agreed that they could select the sex of s upport worker delivering their care.

95% of people agreed and scored 'outstanding' or 'good' to the question; 'People are asked to give consent to their care, treat ment and support in a way they understand' of those, 67% sele cted 'outstanding'.

89% of people agreed that 'Staff know about health needs and personal wishes and people are given as much choice and cont rol as possible'.

Typical shift patterns in operation for employed staff		
Set out the typical shift patterns of staff employed at the service in this role type. You should also include the average number of staff working in each shift.	The staff team at Gwernllwyn Care Home consists of smaller teams. At times of full capacity and during the morning and afternoon shift there are 6 members of staff on each team; 3 on each floor. During the night time there is 4 members of staff on duty, on e senior support worker and 3 support workers. During the night, 2 staff are allocated the first floor and 2 staff members support individuals on the ground floor. Each staff team is headed by a senior support worker and we aim to have a medication trained member of staff on each team in order that the senior support worker is assisted with the duties of administering medication and will usually work on the floor opposite to the senior support worker. The remaining staff will be distributed between the ground and first floor and at the discretion of the senior support worker who may need to take into consideration incidents or emergencies. Staffing levels may be in creased if there are particular or increased needs. The level of dependency is calculated by using the Barthel index tool. Care staff work on a rota system which ensures that the home is staffed by the appropriate number and skill mix throughout the day and night, including weekends and public holidays. We compile a rota which consists of Week 1 and week 2 which works on a rolling pattern. Team members are attached to a shift time - 7am-3pm, 3pm-1 1pm or 11pm-8am.
