Provide details of any outside space to which the residents have access	We have a number of large areas throughout the grounds where residents and their families/friends can go. Within these areas are gazeebos with seating and tables where groups or individuals may attend. These areas have been used in good weather for families to have personal occassions outside. One of the areas has a specific theme which is visually stimulating, especially for people with dementia. We encourage residents to plant flowers and care for the grounds to ensure they have access to nature. We are surrounded by many mature trees which provide a variety of wildlife such as woodpeckers and squirrels.
Provide details of any other facilities to which the residents have access	Residents have access to an area that has been developed for re sidents to continue a work ethic routine with the help of the local c ommunity.

Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published <u>guidance</u> on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.	We feel that listening and accomodating people as much as po ssible is one of our strongest points at Ty Pentwyn. Residents wishes are acted upon as much as possible. Sometimes this has a difficult effect for staff in their working routines but they ada pt to accommodate people as much as possible to ensure residents feel cared for and supported how they would like. We have regular residents meetings so that residents can voice their thoughts and concerns. It is also a time to include residents in how to ensure the home is being run to suit their needs. It is a sociable event where we encourage people to get together and interact and make friends. We have annual questionnaires that residents and their families complete so we can identify if there are any problems or weak er areas so we can work towards rectifying them.
The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.	We have 2 excellent activity coordinators who work in different ways to ensure a variety of activities is in place for residents. T hey each are capable of identifying residents life stories and their abilities and incorporating an activity around that. We beleive that residents still have a purpose in life and aim for them to feel valued. We do this by adopting a work based approached to their activities that supports their menatl well being as well as being inclusive of social and community based activities. We have workstations that are adaptable for their specific needs that residents are able to use to adopt this approach.
The extent to which people feel safe and protected from abuse and neglect.	We are proud that we do not get any pressure related incidents regualrly, they are extremely rare and seem to be identified early so changes can be made to prevent damage occuring. We have a very low level of complaints. Manager has an open door policy. Any verbal concerns are acted upon immediately to ensure our residents feel listened to and supported. All staff have recieved safeguarding training and pressure area care training. Nurses are constantly on duty and the Manager is also a nurse for extra support to the staff if required.
The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.	We encourage residents and families to personalise their room s with items of importance to them to make it feel homely. Some have fridges and Sky Tv in their rooms. We give all residents and family access to our WIFI. Many have alexa in their rooms. The CWTCH is an important part in improving residents social and motor skills by interacting with each other and outside agencies who assist in making things together. We feel we continue to work closely with residents and their families, we do not collect data on compliments but it is noted in me etings, inspections and on our Facebook page. Our low level of complaints would back this up.
