Statement of Compliance

The Responsible Individual must prepare the statement of compliance.

CIW have published guidance on completing the quality of care review which provides advice on what could be contained within the statement of compliance.

Set out your statement of compliance in respect to the four well-being areas below.

The extent to which people feel their voices are heard, they have choice about their care and support, and opportunities are made available to them.

Beach Court promote Person centred outcome based care plan s and risk assessments. We ensure that the care plans are from the residents perspective and talk with the resident their families and others to capture as much information as possible to ensure that we meet the needs of the resident.

When Care plans are reviewed we encourage the resident to si t with a member of the management team and go through the c are plan and outcomes with them to ensure that they are involved and have a say in their care and support.

We have the Quality Assurance questionnaires that are comple ted by the resident, family members and others and we compris e an action plan based on the results to see what's working and what's not working.

As an RI, on my visits, I will sit and talk to the residents and ask if they are happy with the level of care and support offered by the staff and if they feel valued.

The RM and management team work closely with the staff team and residents to ensure that the needs are being met and independence is promoted.

When we have reviews with the social worker and family, we en sure that the resident is involved and is the focus of the review.

The extent to which people are happy and supported to maintain their ongoing health, development and overall wellbeing. For children, this will also include intellectual, social and behavioural development.

Beach court have a medication lead who holds a senior positio n. Their responsibility is to ensure that the medication is ordere d, delivered, audited and administrated. Staff work in a person centred way and are aware of any changes in presentation with the residents. Concerns are reported to the management team and the appropriate medical or mental health professionals are called to visit the home the same day as applicable.

District nurses visit daily to undertake medical practice which co uld involve insulin injections, pressure areas, dressings etc. Th ey are also involved with end of life residents.

Beach Court have some residents registered with Glan Traeth community mental health and they are supportive with managin g any concerns that we report with a residents change of behav iors or presentation.

A chiropodist visits the home every 6 weeks and Specsavers vi sit the home annually to complete eye tests and provide glasse s where required.

Residents at the home have person centred Risk assessment to minimise and reduce risks and these are updated 3 monthly or sooner as required.

PEEPS are completed every 3 months or sooner of the resident s needs change that would affect the safe evacuation in the ev ent of a fire.

Health and safety in the home is a high priority and staff ensure that areas are clear, clean and risks are reduced.

Medication changes are documented and trained staff administ rate medication to the residents.

Beach Court have 2 communal areas and residents integrate with each other during the day. Staff will undertake activities with the residents and we arrange themed days.

The extent to which people feel safe and protected from abuse and neglect.

Beach Court comply with safe recruitment and ensure all staff h ave a DBS and references on file. Staff are registered with soci al Care Wales.

Staff receive Safeguarding training and we have provided an A pp with Beach Court Policies and Procedures and there are pa per copies in the office for staff to access.

Risk assessments are in place for each resident and included i s Health and safety practice with Manual handling included.

Personal Care is undertaken promoting dignity and respect and we ensure that the resident is covered with a towel when undert aking personal care and showering etc.

Any concerns to a residents wellbeing is reported and documen ted at once and the correct support is offered.

Staff are aware of the whistle blowing policy and how to action s uspected neglect or abuse.

Beach Court are introducing "Resident Guardians" that act the i n the best interest of the resident.

Their role will be to ensure that each resident receives the quali ty care and support that they deserve and to be the voice of th e resident.

Some of the residents residing at Beach Court have an advocat e and we promote an open door policy in where residents, staff and visitors can access the Manager at any time.

We promote an open and transparent ethos in which we work t ogether and support the staff team to understand their role and feel supported.

Residents have DOLS in place as we are an closed door home and some of our residents have their liberties restricted to keep them safe.

The extent to which people live in accommodation that best supports their wellbeing and achievement of their personal outcomes.

Beach Court will assess potential people coming into the servic e based on Social Services Care plans, meeting with the reside nt and families where possible and talking to other professional s involved in the care and treatment of the resident.

We have a 12 week assessment period in which we work with th e resident to monitor and assess their needs, wants, likes and dislikes. In some cases, residents will come into the service for a respite period for a week or 2 weeks. This gives the resident t he choice to decide whether they want to live here.

The daily notes are completed and include outcomes. We are a n EMI home and the outcome depends on the resident that day

We ensure that outcomes set for that month are achievable an d realistic to promote outcomes that benefit the resident.

We promote independence as much as possible and work in a ' do with not do for" as much as possible depending in the need of the person.

We have had residents that we have not been able to meet thei r needs due to the fact that their behaviors impact on the other residents and intervention from other professionals has not bee n affective.

We recognise that it is in the best interest of the person to mov e to nursing placement and we work closely with Social Service s and others to action this.
